New Guidance for Pregnant Women and COVID-19

On June 26, 2020, the Centers for Disease Control and Prevention (CDC) revised [guidance on the risk of COVID to pregnant women](#). In a [Morbidity and Mortality Weekly Report \(MMWR\) published last week](#), the CDC indicated that pregnant women may be at increased risk for severe COVID-19 illness. More specifically, the MMWR study determined that pregnant women with COVID-19 were more likely than non-pregnant women to be hospitalized and at increased risk for intensive care unit (ICU) admission and the receipt of mechanical ventilation. In its public-facing guidance, CDC notes that among pregnant people with COVID-19 "there may be an increased risk of adverse pregnant outcomes, such as preterm birth."

COVID-19 Pre-surge and Longer-Term Planning Toolkit for Long Term Services and Community Supports

The Ohio Departments to Aging, Health, Developmental Disabilities, and Medicaid worked together to create a toolkit for provider organizations and staff serving Ohioans who utilize LTSS or home visiting services during the COVID-19 crisis. This toolkit reflects the importance of Governor DeWine's aggressive approach to protecting all of Ohio's citizens during the pandemic and aligns with his direction to prepare to care for any possible "surge" of individuals contracting COVID-19. As Ohio's pandemic has shifted to a series of COVID-19 outbreaks largely in congregate environments, the original tool kit has been updated to incorporate the most recent changes.

Personal Protective Equipment (PPE)

<https://www.cdc.gov/coronavirus/2019-ncov/hcp/using-ppe.html>

Vendor Information

Here's the [webpage](#) that contains the information and lists of PPE vendors. The relevant parts of the page are pasted below. See the DSA/DAS list at the bottom under Additional Resources.

Ohio Emergency PPE Makers' Exchange

The [Ohio Emergency PPE Makers' Exchange](#), launched by the [Ohio Manufacturing Alliance to Fight COVID-19](#), is an online marketplace where organizations that need personal protective equipment (PPE) and related equipment can find a wide selection offered by Ohio manufacturers. This online exchange offers PPE and related equipment for health care workers, first responders, and small businesses. It's especially well-suited for organizations that may have lower-volume needs, such as nursing homes, police departments, and small business employers.

The Alliance has screened to the best of its ability for only Ohio manufacturers, but it has not vetted each product and vendor.

The Alliance also has created [this list of practical things](#) manufacturers need to be thinking about and do today to prepare for COVID-19.

JobsOhio PPE Database

Several Ohio companies are working to increase the supply of in-demand medical PPE. [JobsOhio](#) has partnered with OMA, the Administration and with our Regional Network partners to provide assistance. A list of manufacturers, distributors and potential contract manufacturers to connect with these resources is available through JobsOhio's [Ohio Safe. Ohio Working.](#) website.

Additional Resources

In addition to the resources available via the Ohio Manufacturing Alliance and JobsOhio, the Ohio Development Services Agency and the Ohio Department of Administrative Services has compiled another [list of vendors providing various PPE is available here PDF](#).

PPE Needed for Healthcare Workers

Based on Exposure and Patient Symptoms

NO EXPOSURE NO SYMPTOMS

- **Mask:** medical facemask: extended use and reuse all shift*
- **Eye protection:** only for routine precautions
- **Gown:** only for routine precautions
- **Gloves:** only for routine precautions

EXPOSED NO SYMPTOMS

- **Mask:** surgical facemask: extended use and reuse all shift*
 - N95 only with aerosolization
- **Eye protection:** extended use and re-use goggles / face shield
- **Gown:** expired disposable or cloth isolation
- **Gloves:** medical grade, nonsterile
 - Change between patients

COVID-19 CONFIRMED OR SUSPECTED

- **Mask:** N95 extended wear within cohort/isolation, limited reuse*
- **Eye protection:** extended use and re-use goggles / face shield
- **Gown:** expired or cloth isolation*
 - Change between patients
- **Gloves:** medical grade, nonsterile
 - Change between patients

**Unless contaminated (wet, soiled, damaged)*

Home Visiting Screening Guide

Call individual and prescreen to identify if eligible for a home visit:

Tips for Home Visiting

Preparing and arriving for a visit

What to bring

- Bring only items necessary for the visit into the home.
- Avoid placing belongings on tabletops and counters that might have high levels of contamination.
- Store personal items securely in your vehicle prior to arriving at the location.

Arrival and greeting

- Put your face covering on after sanitizing hands and before leaving your vehicle.
- Greet families verbally.
- Avoid physical contact.
- If possible, maintain the recommended 6 foot distance between people.
- Consider if it is appropriate to complete the visit outside (on the porch, patio, etc).

Home visit kit

- Reusable plastic bag that seals.
- Hand soap, hand sanitizer.
- Paper towels (fold several into a reusable bag, do not take whole roll).
- Cleaning wipes.

Cleaning and sanitizing during and between visits

Washing hands

- Wash hands at kitchen sink for at least 20 seconds upon arrival, departure, and when contaminated.
- Use supplies brought in your "Home Visit Kit."
- Use hand sanitizer in situations when hand washing is unavailable or unreasonable.

Supplies

- Clean and sanitize the following items between home visits and/or as needed: cell phone, pen, name badge, clipboard, etc.
